- Java
- JavaScript
- SQL
- C#
- Unity
- HTML / CSS
- Teamwork
- Quick Adaptation

LANGUAGES

- Romanian - c2
- English - c1
- French - c1

AREAS OF INTEREST

- Reading
- Video Games
- Sports

PROFILE

I am a third-year student on the BUT 3 Computer Science programme at the University of Lille, looking for a work-study placement or a 16-week internship. Thanks to my studies, I have had the opportunity to develop my skills in a range of programming languages, including Java, C#, HTML/CSS, JavaScript and SQL. I am determined and motivated, and am able to settle in and adapt to a wide variety of working environments, as well as communicate effectively and integrate easily into a team.

PROJECTS

- **MERGE CONFLICT - DEVELOPMENT OF A SHOOT THEM'UP IN TYPESCRIPT**
 - 03/2026 - 04/2026
 - Team project (3 people): Design and development of a shoot 'em up game that can be played solo or in online multiplayer mode, using TypeScript and socket.io. Use of GitLab milestones and issues to ensure precise and efficient organisation.

- **GAME DEVELOPMENT PROJECT USING SCRUM**

01/09/2025 - 04/09/2025

- Java project (Scrum): Design and development of the Gambler game, combining several games of chance (Blackjack, roulette, slot machines). Implementation of a modular architecture, management of player states and integration of dynamic events to enhance the gaming experience.

PROFESSIONAL EXPERIENCE

- **AUGMENTED REALITY DEVELOPER INTERNSHIP**
 - 04/2026 - 06/2026 - Ircica Laboratory, PIRVI, Villeneuve d'Ascq
 - Development of an AR application using Unity and C# with a Magic Leap 2 headset
 - Working in a cutting-edge research environment
 - Code optimisation and extensive documentation
- **STUDENT JOB - METAL WORKER**
 - 30/06/2025 - 08/08/2025 - Loison, Armentières
 - Teamwork on a building site
 - Fitting metalwork and glazing
 - Stress management and working under pressure
